

PASTFOOD

Forno elettrico modulare per
pasticceria, panetteria e gastronomia

Modular electric oven for pastry,
bread and gastronomy

PASTFOOD - PFC/PFF

CARATTERISTICHE TECNICHE

- 1 - 2 - 3 camere di cottura (A17 o A27) in acciaio alluminato con piano di cottura in lamiera bugnata o in refrattario (optional).
- Piano di cottura e cielo con resistenze corazzate in acciaio inox
- Pannello di controllo elettromeccanico o digitale
- Controllo separato delle temperature del piano di cottura e del cielo
- Isolamento termico
- Massima temperatura di cottura 450 °C
- Valvola regolabile per scarico vapori
- Sportello con finestra in vetro temperato
- Sportelli frontali controbilanciati
- Lampade alogene ad alta resistenza e capacità luminosa
- Disponibile in acciaio inossidabile

ACCESSORI

- Cella di lievitazione ermetica
- Supporto del forno
- Modulo cappa

OPTIONAL

- Piano refrattario
- 4 ruote (h = 16 cm + 2 cm per la cella di lievitazione)
- Piedi per celle di lievitazione (h min = 8 cm / max = 20 cm)
- Vaporiera (assorbimento massimo 1,4 Kw)
- Kit abbattimento vapori e odori con filtro ai carboni attivi (assorbimento massimo 0,7 Kw)

TECHNICAL SPECIFICATIONS

- 1 - 2 - 3 cooking chambers (H17 or H27) in aluminium coated steel with embossed steel or refractory (optional) floor
- Top and bottom stainless steel armored heating elements
- Electromechanical or digital control panel
- Top and bottom separate temperature control
- Thermal insulation
- Max cook temp 450 °C
- Adjustable steam exhaust valve
- Single tempered glazed door
- Counter balanced door
- High resistance and efficiency halogen lamps
- Available stainless steel

ACCESSORIES

- Hermetic prover compartment
- Oven support
- Hood module

OPTIONALS

- Refractory cooking floor
- 4 wheels (h = 16 cm + 2 cm for the prover)
- Feet for provers (h min = 8 cm / max = 20 cm)
- Steam injection system (max. absorption 1,4 Kw)
- Steam and odours damper kit for hood with active carbon filter (max. absorption 0,7 Kw)
